Your front photo is the leading cover of the electronic portfolio that is presented to our customer. This is the 'showcase' photo and we should make every effort to provide the highest quality image as possible.

This house has secured gates limiting access to the rear side. There was no one present to do an interview or to provide access to the rear side of the property.

Three separate hazards were observed. Dedicated photos of each hazard were provided along with a supporting comment for each condition.

Monopod roof photos were requested on the client instructions.
